## More News For Veterans

 Department of Veterans Affairs

Please be informed that effective July 1, 2010, the Department of Veterans charge for a 30-day or less supply of medication provided on an outpatient basis for treatment of a non-serviced connected condition will increase from \$8 to \$9 for Veterans who generally have higher incomes and no service connected disabilities – referred to as Priority Groups 7 and 8. As a result, the charge for a 60-day supply of medication will be \$18 and for a 90-day supply will be \$27.

Veterans in Priority Groups 2 through 6 will not be impacted by this change and will continue to pay \$8 for each 30-day or less supply of medication provided for a non-service connected condition unless otherwise exempted. Priority Group 2-6 Veterans will also continue to have a cap on the amount they can be charged in a calendar year of \$960.

Veterans who have an injury or illness connected with their military service resulting in a disability rated 50 percent or greater – enrolled in Priority Group 1 - are exempt from this co-pay.

VA generally sets its outpatient medication co-pay rate based upon a regulation which ties the rate to the Medical Consumer Price Index for prescription drugs.

We understand that this change may result in a financial hardship for certain Veterans and encourage Veterans to contact us at **1-877-222 VETS (8387)** or your local VA health care facility. For benefit questions concerning co-pays or other programs please contact us at the above number or visit our health eligibility Web site at [www.va.gov/healtheligibility](http://www.va.gov/healtheligibility).
