

FOR IMMEDIATE RELEASE

REPUBLIC SERVICES WORKING TO MAKE SURE ALL HERNANDO COUNTY CUSTOMERS ARE SERVED

HERNANDO COUNTY, Fla.—January 5, 2012— Republic Services began its contract for waste collection and recycling services in the County of Hernando on Monday, January 2, 2012. The Company has experienced high call volume and because of this, has added additional resources from around the country to assist in answering residents' concerns. Republic's people will also be working extended hours to make sure that all customers are served.

By now, most of the residents should have received letters that confirm their collection day. In addition, a second correspondence should be arriving in the next couple of days to the service area.

A map showing collection days for different areas of the county is posted on the Hernando County Government website at www.hernandocounty.us
