*[Subsequent to the meeting, FDOT indicated that sidewalk improvements are placed in scopes for State facilities and until further direction should remain on the list separately.]*

Ms. Miller noted that the Hernando County Comprehensive Plan will be updated in 2026, and she will be reaching out to the MPO to coordinate communication regarding these updates. Ms. Elwin emphasized the importance of ensuring alignment between the 2050 Long-Range Transportation Plan (LRTP) and the Comprehensive Plan of the local jurisdictions.

### **CITIZEN COMMENTS**

George Popovich, the City of Brooksville Grants Administrator, commended Hernando County Transit (TheBus) and the Hernando County Community Transportation Coordinator (You Thrive) for their valuable services to the community.

### **COMMITTEE MEMBER COMMENTS**

- Ms. Miller expressed her happiness to return to the TAC rotation team representing the Hernando County Planning Department.
- Ms. Lollie announced two fixed routes for the transit system (TheBus) were added. Route 5 will provide service along SR50, connecting Walmart on US 41 to US 301. She indicated the color naming of routes was being changed to route numbers as they were running out of colors. Route 6 is a new micro transit route that operates within the downtown Brooksville area. Both routes will feature a Demand Response Service, which is a complementary ADA service that assists riders whose starting and ending locations are within ¾ mile of the fixed-route system. The additional routes should reduce the burden on the Community Transportation Coordinator (You Thrive FL).

## **MPO STAFF UPDATES**

Mr. Esposito shared the following updates:

- Grant applications for Safe Streets for All have to be submitted by June 26, 2025, at 5:00 p.m. and require a Safety Action Plan. The MPO may be able to aid with creating Safety Action Plans. Chair Eastmond mentioned Citrus County was not LAP certified and thus ineligible. Elisa Joyner, FDOT District 7 liaison will investigate and confirm.
- Justin Hall was named the FDOT District 7 Secretary replacing David Gwynn who is retiring at the end of April 2025.
- Discussions continue with Pasco County, Hernando County, and FDOT regarding the widening of County Line Road. Mr. Esposito noted that consideration should be given to prepare for either a six-lane or four-lane widening of the road. Mr. Herring pointed out that expanding to six lanes would necessitate purchasing homes as part of the right-of-way-acquisition. The current timeframe for construction is FY2033. Mr. Esposito thanked FDOT for funding half of the construction costs.
- The Withlacoochee State Trail was repaired and repaved in several areas in or near the City of Inverness and the Hernando area in Citrus County. Design began in May 2024, construction began August 14, 2024, and the project was accepted by the contractor as completed as of Monday, February 3, 2025.
- Citrus County:
  - US41 and CR491 in Citrus County, the eastbound phase on CR491 left-turn signal has been added. Chair Eastmond and Ms. Granger expressed their gratitude for the left-turn signal and Ms. Granger compared it to *"the greatest thing since sliced bread."*
  - Gospel Island and SR44 will get a traffic signal during the resurfacing that is currently underway (estimated completion is spring of 2026, FDOT Project #448040-1-52-01 & 443981-1-52-01).
- Hernando County:
  - A dedicated right-turn lane will be added at Ayers and US41 when the resurfacing project begins (summer 2026, FDOT Project #447935-1-52-01).
  - Turnpike is conducting a study of Spring Hill Drive and SR 50 regarding the request for additional northbound left turn lanes. The study will be completed in July.
